Re: Recommendation – Flipkick Swim Academy

Dear Mr. MacKay:

It is with great pleasure that I recommend Flipkick Swim Academy. I believe they would do a great job of complementing the health and wellness programs you provide your patrons.

Flipkick Swim Academy has been operating in the City of North Richland Hills since 2012. They have experienced tremendous growth over the past five years. I'm not surprised by their growth, as their reputation precedes them.

I have personally experienced the success of Flipkick Swim Academy. In 2014, at the age of six months, my granddaughter was enrolled in the program. Our family has noticed significant progress with her water skills and most importantly, water safety. With the number of pools becoming a common backyard feature, water safety is essential and best learned at a young age. Even three years into the program, she still looks forward to her lessons. I attribute this to the attentive instructors and staff.

In 2015, the City of North Richland Hills began its own water safety program called NRHWS365. The program promotes and stresses the importance of water safety in our City and surrounding communities.

Flipkick has provided my family and the community with a beneficial learn-to-swim water safety program for infants, children, and adults. It would be wonderful to see their vision continued at the North Richland Hills LA Fitness.

If you would like to speak with me directly, please call 817-427-6060.

Sincerely,

Oscar Trevino
Mayor
